SUBJECT INDEX

ABUTMENTS
Stability of Rock Slopes, A Three-Dimensional Study, 88

ACCELERATIONS
Characteristics of Rock Motions During Earthquakes, 1008
On Acceleration of Barge Tows, 39

ACCIDENT PREVENTION
Safety in Construction: Whose Responsibility?, 781

ACCUMULATION
Trace Metal Accumulation by Estuarine Mollusks, 597

ACQUISITION
Double-Decking an Expressway, 1030

ACTIVATED SLUDGE PROCESS
Analog Simulation of Activated Sludge Systems, 9
Comparative Biological Waste Treatment Design, 446
Energy Concepts of Aerobic Microbial Metabolism, 1076
Package Plants—Past Present and Future, 95
Toxicity Measurements in Activated Sludge, 534

ADMIXTURES
Concrete Today and Tomorrow, 593

ADJUSTMENT
Adjustment of Traverses, 904
Precision of Adjusted Variables by Least Squares, 229

AERATION
Comparative Biological Waste Treatment Design, 446
Effects of Temperature on Stream Aeration, 283
Oxygen Transfer from Falling Water Droplets, 1069
Package Plants—Past, Present and Future, 95
Reaeration Prediction in Natural Streams, 1059
U-Tube Aeration Operating Characteristics, 69

AERIAL PHOTOGRAPHS
Determination of Perspective Generating Parameters, 747

AERIAL PHOTOGRAPHY
Estimating Land-Clearing Costs Using Aerial Photograph, 532

AERIAL SURVEYING
Construction Surveys for Merced River Project, 81

AERIAL SURVEYS
Analytical Aerotriangulation in Highway Design, 104
Infrared Imaging for Water Resources Studies, 231

AEROBIC PROCESSES
Energy Concepts of Aerobic Microbial Metabolism, 1076

AERODYNAMIC STABILITY
Aerodynamic Investigations of Box Girder Bridges, 1018

AERODYNAMICS
Aerodynamic Instability of Suspension Bridges, 843
Self-Controlled Vibration of a Cylinder in a Fluid Stream, 1063

AEROSOLS
Viability of Long-Storaged Airborne Bacterial Aerosols, 312

AERO-SPACE TRANSPORT
Access to Airports: Basic Policy Development Issues, 1016
Gate Arrival Terminal for Kansas City MCI Airport, 387
Runway Roughness Effects on New Aircraft Types, 427
Sizing of Departure Lounges in Airport Buildings, 222

AGGREGATES
Concrete Today and Tomorrow, 593
Using Aerial Photos to Locate Granular Fill Material, 309

AGRICULTURAL PRODUCTS
Predicting Effects of Water Shortage on Crop Yield, 144
Salt Balance, Irrigation Efficiency, and Drainage Design, 995

AGRICULTURAL WASTES
Animal Wastes—A National Problem, 255

AGRICULTURE
Compost for Agricultural Land?, 143
Liaison—Key To Highway and Agricultural Drainage Programs, 98
Unique Role of Water in a Developing Economy, 975

AGRONOMY
Some Environmental Effects of Drainage in Florida, 153

AIRBORNE SURVEYING
Inertial Platforms in Photogrammetric Mapping, 225

AIRCRAFT
Integrating the Airport into the Community Plan, 735

AIRCRAFT LANDING
Grooving on the Runway at Washington National Airport, 57

AIRCRAFT LANDING AREAS
Civil Airport Design Criteria, 948

AIRCRAFT NOISE
Aircraft Noise: Fugitive Factor in Land Use Planning, 160

AIR POLLUTION
Armco Steel Works Features Pollution-Control, 1103
Considerations in Design of Air Monitoring Network, 28
Infrared Aerial Surveys in Environmental Engineering, 1038
Tallest Smoke Stack for Mitchell Plant, 634
TVA's Air Quality Management Program, 21

AIRPORTS
Access to Airports: Basic Policy Development Issues, 1016
Balanced Highway—Airport Design, 1079
Civil Airport Design Criteria, 948
Continuous Reinforcement in Airport Concrete Pavements, 1008
Gate Arrival Terminal for Kansas City MCI Airport, 387
Grooving on the Runway at Washington National Airport, 57
Insulated and Improved Subgrades for Eliminating Frost Heave, 64
Integrating the Airport into the Community Plan, 735
Newark Airport Redevelopment Program, 495
Planning Airports System in Paris Area, 337
Runway Overlay Applied Overnight at Toledo Airport, 618
Runway Roughness Effects on New Aircraft Types, 427
Sizing of Departure Lounges in Airport Buildings, 222
Technology and Decisions in Airport Access, 1099
Test of Air Cushion Vehicles in Public Transport, 957
Transportation Within Airports, 273

AIR TRANSPORTATION
Transportation Within Airports, 273

ALGAE
Design Principles of Waste Stabilization Ponds, 126

ALLUVIUM
Design of Stable Channels in Alluvial Materials, 962

ALUMINUM
Aluminum Corrosion at Urban and Industrial Locations, 1036
Structural Metals—Aluminum, 578

ALUMINUM ALLOYS
Structural Metals—Aluminum, 578

AMMONIA
Sealing Leaks in Pipelines with Ammoniated Waters, 129

ANAEROBIC PROCESSES
Design of Sludge Digestion Tanks, 669
Dialysis Separation of Sewage Sludge Digestion, 1090

ANALOG COMPUTERS
Analog Simulation of Activated Sludge Systems, 9

ANALOGS
Analog of Ground Water in East-Central New Mexico, 949

ANCHORS (Structures)
Strengthening of John Hollis Bankhead Dam, 1072

ANEMOMETERS
Dr. Santorio's Water Current Meter, 147

ANGLES (Geometry)
Two Approximation Formulas for Finding Angular Values Directly, 7

ANISOTROPY
Closing Materials Research Structural Design Cycle, 1031

ANTENNAS
Minimum Weight Design of Enclosed Antennas, 46
Unique Solution for Difficult Rigging Problem, 175

AQUEDUCTS
Aqueduct Route Optimization by Dynamic Programming, 1060
Design of California Aqueduct, 32
Use of Pipelines in the California Water Project, 681

AQUIFERS
Iterative Analysis: Bounded Leaky Artesian Aquifer, 940
Role of Ground Water in Texas Water Plan, 536
Snake Plain Analog Studies, 202

ARCHES
Buckling of Uniformly Compressed Circular Arches, 1003
Complementary Energy Method for Buckling of Arches, 548

ARCHING
Horizontal Movements Related to Subsidence, 925
Model Study on Arching Above Buried Structures, 201

ARCHITECTS
Architects and Highways 71

ARCHITECTURE
Engineering Education and the Origins of Modern Structures, 23

ARKANSAS RIVER
The Arkansas River Project, 800

ARTESIAN WATER
Iterative Analysis: Bounded Leaky Artesian Aquifer, 940

(ASCE) ACTIVITIES
Proposed ASCE Professional Organization and Structure, 1062

(ASCE) AWARDS & PRIZES
Armco Steel Works Features Pollution-Control, 1103
ASCE Designates Charleston-Hamburg Railroad National Historic Engineering Landmark, 1102

(ASCE) LOCAL SECTIONS
Public Relations and Public Service Papers in the Los Angeles Section, 441

(ASCE) MEMBERS
ASCE Responsibility for the Economic Welfare of its Members, 549

(ASCE) PRESIDENTS
Priorities: Engineering Education; ASCE; Pollution Control, 1106

(ASCE) Professional Activities
Collective Bargaining for Public Employees, 750
Proposed ASCE Professional Organization and Structure, 1062

ASPHALTS
50th Birthday for Asphalt Institute, History of Asphalt and Asphalt Institute, 250
Asphalt Paving Technology—Some Current Developments and Trends, 684
Kneading Compaction of Asphalt Beam Specimens, 474
Runway Overlay Applied Overnight at Toledo Airport, 618
Sprayed Asphalt Pavements for Water Harvesting, 187

ASTRONOMICAL OBSERVATORIES
Observatory Has Steel Pipe Space Frame, 163

ATMOSPHERIC PRESSURE
Urban Gravity-Vacuum Transit System, 425

ATTENUATION
Characteristics of Open Tube Wave Attenuation System, 162

AUDITORIUMS
Wind Loads on Kresge Auditorium and Traveler's Building, 907

AUTOMATION
Automation in California's State Water Project, 499
Stands for Automation Achieved by Sprinkling, 62

AUTOMOBILES
Balanced Highway—Airport Design, 1079

AXISYMMETRIC FLOW
Numerical Solutions to Free-Surface Axisymmetric Flows, 265

AZIMUTH
Evaluation of Antartic Star Observations, 741

BACKWASHING
Filter Backwashing Tests and Upflow Equalization, 502

BACTERIA
Enteric Disease Criteria for Recreational Waters, 291
Viability of Long-Storaged Airborne Bacterial Aerosols, 312
Validity of Energy Change as a Growth Parameter, 511

BACTERIOLOGY
Enteric Disease Criteria for Recreational Waters, 291

BAFFLES
Filter Backwashing Tests and Upflow Equalization, 502

BARGES
Barge Transportation—Energizer of Production and Marketing, 33
On Acceleration of Barge Tows, 39

BARS
Lateral Vibrations of Plane Curved Bars, 773

BASE COURSES
Problems of Designing Roadway Structures, 105
Stabilized Base for Residential Streets, 292

BASE FLOW
Flow Rates in Two-Dimensional, Unsteady, Confined Groundwater Flow, 141

BAUSCHINGER EFFECT
Inelastic Response for Arbitrary Histories of Loads, 19

BEACHES
Proposed Santa Monica Causeway Project, 191
Shoaling of Solitary Waves on Small Slopes, 122

BEAM COLUMNS
Analysis of Unbraced Multistory Steel Rigid Frames, 616
Behavior of Elastic-Plastic Frames, 609
Slender Prestressed Concrete Columns, 505

BEAM COLUMNS *Continued*
Strength and Behavior of an Inelastic Hybrid Frame, 416

BEAMS (Supports)
Analysis of Box Girders with Diaphragms, 760
Behavior of Howe, Pratt, and Warren Trusses, 933
Behavior of Prestressed Composite Beams, 392
Buckling Analysis of One-Story Frames, 792
Buckling of Continuously Supported Beams, 158
Buckling of Naturally Curved and Twisted Beams, 890
Design of Beams with Web Openings, 471
Design of Hybrid Steel Beams, Report of Subcommittee 1 on Hybrid Beams and Girders, 591
Development and Use of Prestressed Steel Flexural Members, 712
Elastic Shear Analysis of General Prismatic Beams, 604
Elasto-Plastic Deflection of Tubular Beams, 924
Horizontally Curved Girders—State of the Art, 989
Inelastic Bar Subjected to Thrust and Cyclic Bending, 915
Inelastic Deflections of Beams, 665
Laminated Wood Beams Reinforced with Steel Strips, 682
Lateral Stability of Welded Light Trusses, 483
Longitudinally Restrained Reinforced Concrete Beams, 462
Mechanisms of Shear Resistance of Concrete Beams, 748
Minimum Weight Proportions for Steel Girders, 1059
More on Deflection of Steel Beams, 1040
On The Accuracy of Timoshenko's Beam Theory, 1044
Optimal Structure Design by Dynamic Programming, 702
Response of Nonlinear Beams and Plates to Ponding, 195
Shakedown of Bars in Bending and Tension, 71
Stresses in Beams Having Holes of Arbitrary Shape, 911
Structural Analysis of Circular Curved Beams, 361
Structural Engineering Research in Wood, 418
Tests on Composite Beams with Cellular Deck, 315

BEARING CAPACITY
Probability of Foundation Safety, 382
Repair of 7-Story Bearing Wall, 242
Settlement of Strip Load on Elastic-Plastic Soil, 810
Soil Mechanics and Theorems of Limit Analysis, 980
Theoretical Bearing Capacity of Very Shallow Footings, 165
Ultimate Capacity of Single Bolted Angle Connections, 249
Ultimate Strength of Laterally Loaded Columns, 576

BED FORMS
Free Surface Shear Flow Over a Wavy Bed, 586

BED LOAD
Definitive Computations of Sand Discharge in Rivers, 239

BENDING
Analysis of Plate Bending by Triangular Element 901
Biaxial Moment Thrust Curvature Relations, 134
Convergence of Hypar Finite-Difference Solutions, 984
Finite Element Plate Bending Equilibrium Analysis, 1081
Flexure of Circular Plate by Concentrated Force, 589
Stresses in Beams Having Holes of Arbitrary Shape, 911

BENEFIT COST ANALYSIS
Broad Scope of Navigation's Economic Impact, 398
Interdistrict Apportionment of Flood Control Costs, 882
Optimum Investment in Structural Flood Control, 247
Towards an Optimum Solution for Underground Rapid Transit, 997

BERTHS
Berth Planning by Evaluation of Congestion and Cost, 518

BIBLIOGRAPHIES
Aerodynamic Instability of Suspension Bridges, 843
Dredging Fundamentals, 498
Effect of Urban Development on Flood Discharges, 199
Horizontally Curved Girders—State of the Art, 989
Ocean Engineering—Selected References, 640

BIDS
Subway Construction: Management and Costs, 408

BINS
Bin Loads, 243
Grain Storage Structures for Food Deficient Areas, 1048
Shakedown of Bars in Bending and Tension, 71

BIOCHEMICAL OXYGEN DEMAND
Impoundment and Temperature Effect on Waste Assimilation, 1049

BITUMINOUS COATINGS
Runway Overlay Applied Overnight at Toledo Airport, 618

BITUMINOUS CONCRETES
Fatigue of Asphalt Paving Mixtures, 1066

BLAST LOADS
Analysis of Tunnel Liner-Packing Systems, 1074

BOLTED JOINTS
Behavior of Large A514 Steel Bolted Joints, 252
Load Distribution in Multiple-Bolt Tension Joints, 599
Ultimate Capacity of Single Bolted Angle Connections, 249

BORING
What's Ahead for Tunneling Machines, 301

BOUNDARY LAYER
Boundary-Layer Development at Curved Conduit Entrances, 539
Edge Effects in Hyperbolic Paraboloid Shells, 186
Unsymmetrical Bending of Prestressed Annular Plate, 881

BOX BEAMS
Severn River Suspension Bridge, 794

BRACING
Columns Braced by Girts and a Diaphragm, 114

BREAKWATERS
Damping Effect of Floating Breakwater, 294
Large Area Wave-Load Meter 349
Pressures of Partial Standing Waves on Vertical Walls, 839
Prestressed Concrete Simplifies Construction of Breakwater/Wharf, 29

BRIDGE PIERS
Bridge Piers—Hydrodynamic Force Coefficients, 467
Conquering Conneaut Marsh 283

BRIDGE SPANS
Lateral Wind on Side Spans of Suspension Bridges, 744

BRIDGES
Aerodynamic Investigations of Box Girder Bridges, 1018
Bigger Bridge Loads Coming—Will We Be Ready?, 123
Structural-Design Innovations in Japanese National Railways, 971
Bayonne River Bridge, 431

BRIDGES (Arch)
Bayonne River Bridge, 431

BRIDGES (Box Girder)
Aerodynamic Investigations of Box Girder Bridges, 1018

BRIDGES (Concrete)
Prestressed Precast Concrete Railroad Bridges, 967
Structural-Design Innovations in Japanese National Railways, 971
Tie-Downs and Inclined Legs Lead to Slender, Graceful Overpass, 176
Two Prestressed Concrete Bridges in Pakistan, 762

BRIDGES (Girder)
Analysis of Skewed Composite Girder Bridges, 524
Steel Box Girders Highlight Design of I-480 in Omaha, 795

BRIDGES (Highway)
Response of Highway Bridges to Renewal Traffic Loads, 256

BRIDGES (Lift)
Hydraulically Actuated Vertical Lift Bridge, 928

BRIDGES (Orthotropic)
Bayonne River Bridge, 431
Bridge Tests Predicted by Finite Difference Plate Theory, 942

BRIDGES (Railroad)
Dumbarton Bridge Renewal, 237
Dynamics of Cambered Rapid-Transit Bridge, 32

BRIDGES (Steel)
Hydraulically Actuated Vertical Lift Bridge, 928
Steel Box Girders Highlight Design of I-480 in Omaha, 795

BRIDGES (Structures)
Analysis of Ribbed Plates, 183
Bayonne River Bridge, 431
Behavior of Prestressed Composite Beams, 392
Bridge Tests Predicted by Finite Difference Plate Theory, 942
Grid Moment Maximization by Mathematical Programming, 344
Prestressed Precast Concrete Railroad Bridges, 967
Response of Horizontally Curved Bridge to Moving Load, 785
Two Prestressed Concrete Bridges in Pakistan, 762

BRIDGES (Suspension)
Aerodynamic Instability of Suspension Bridges, 843
Aerodynamic Investigations of Box Girder Bridges, 1018
Continuous Method of Suspension Bridge Analysis, 846
Lateral Wind on Side Spans of Suspension Bridges, 744
Self-Controlled Vibration of a Cylinder in a Fluid Stream, 1063
Severn River Suspension Bridge, 794

BRIDGES (Truss)
Port Latta—Open Sea Loading Terminal, 11

BROWNIAN MOVEMENT
Stochastic Open Channel Flow, 574

BUBBLES
Behavior of Small Gas Bubbles in Accelerated Liquid, 711
Jet-Induced Circulation and Diffusion, 1010

BUCKLING
Analysis of Unbraced Multistory Steel Rigid Frames, 616
Bending of Deep Girders with A514 Steel Flanges, 1068
Bending Strength of Aluminum Formed Sheet Members, 351
Buckling Analysis of One-Story Frames, 792
Buckling and Frequencies of Long Vertical Pipes, 187
Buckling of Continuously Supported Beams 158
Buckling of Inelastic, Tapered, Pin-Ended Columns, 479
Buckling of Naturally Curved and Twisted Beams, 890
Buckling of Partially Embedded Piles in Sand, 686
Buckling of Rigidly-Jointed Plane Trusses, 1007
Buckling of Uniformly Compressed Circular Arches, 1003
Complementary Energy Method for Buckling of Arches 548
Complementary Energy Method for Buckling of Plates 497
Complex Variable Theory and Elastic Stability Problems, 178
Design of Hybrid Steel Beams, 591
Lateral Buckling of Braced Multistory Frames, 893
Local Failure of Plastic-Foam Core Sandwich Panels, 959
Out-Of-Plane Buckling of Curved Members, 1086
Plastic Stability of Spherical Shells, 54
Review of Column Behavior Under Biaxial Loading, 905
Slender Prestressed Concrete Columns, 505
Stability Behavior Illustrated by Simple Models, 999
Stability of a Submerged Stiffened Cylinder, 388
Stability of Spaceframes, 833
Structural Analysis of Circular Curved Beams, 361
Torsional-Flexural Buckling of Thin-Walled Sections under Eccentric Load, 125

BUDGETING
PPB System Implications on Future Highway Program, 1057

BUILD
BUILD—An Integrated System for Building Design, 546

BUILDINGS
1969 AISC Specification, 953
Bending Strength of Aluminum Formed Sheet Members, 351
BUILD—An Integrated System for Building Design, 456
Costs of Lightweight Concrete and other Materials in Various Building Types, 366
Dynamic Response of Frames with Nonrigid Connections, 1053
Dynamics of Tier Buildings, 974
Gust Response Factors, 798
Lateral Buckling of Braced Multistory Frames, 893
Load Fluctuations in Turbulent Flow, 395
Multi-level Parking Structure, 132
Nonlinear Earthquake Behavior of Tall Buildings, 364
P-Δ and Axial Column Deformation in Aseismic Frames, 1025
Pioneer Effort in Systems Approach to Building Construction, 321
Plastic Design: A Case History, 358
Plastic Design for Buildings, 350
Recent Developments in Systems Building, 342
Seismic Response of Single-Story Interaction Systems, 809
Seismic Response of Structure-Foundation Systems, 947
Shopping Centers Development Team, 888
Statistical Model for Live Floor Loads, 780

BUILDINGS (Apartment)
Plastic Design: A Case History, 358
Staggered Truss Building System, 787

BUILDINGS (Codes)
Recent Developments in Plastic Desing Practice, 259
Statistical Model for Live Floor Loads, 780
Urban Housing: Kaiser Committee Reports, 376

BUILDINGS (Commercial)
Multi-level Parking Structure, 132

BUILDINGS (Residential)
CHOICE—HUD's Blueprint for a Better Tomorrow?, 848
Trends in Residential Development, 897

BUILDINGS (Theatres)
Amphitheater Roof Features Steel Box Sections, 775

BULKHEADS
Numerical Analysis of Flexible Retaining Structures, 894

BUSES (Vehicles)
Balanced Highway—Airport Design, 1079

CABLES
Unique Solution for Difficult Rigging Problem, 175

CALCIUM OXIDES
Sealing Leaks in Pipelines with Ammoniated Waters, 129

CALIFORNIA
Design of California Aqueduct, 32

CANADA
Feasibility of Water Export, 927

CANAL LININGS
Design of a Barrel-Vault Cofferdam, 223

CANALS
Alluvial Channel Resistance to Bed Form, 515
Automation in California's State Water Project, 499

Barge Transportation—Energizer of Production and Marketing, 33
Control of Transient Free-Surface Flow, 990
Currents in an Interoceanic Canal, 970
Determination of Efficient Open Channel Sections, 389
Nuclear Excavation of an Elat-Dead Sea Waterway, 288
Use of Pipelines in the California Water Project, 681

CANTILEVER BEAMS
Flexibility Influence Functions for Curved Beams, 56

CAUSEWAYS
Proposed Santa Monica Causeway Project, 191

CAVITATION
Oroville Dam Diversion Tunnels, 488
Reducing Cavitation in Valves, 309

CELL YIELD
Energy Concepts of Aerobic Microbial Metabolism, 1076

CENTERS
New Centers for Regional Development, 812

CHANNEL IMPROVEMENTS
The Arkansas River Project, 800

CHANNELS (Waterways)
Barge Transportation—Energizer of Production and Marketing, 33
Design of Stable Channels in Alluvial Materials, 962
Erosion Control in Relation to Watershed Management, 692
Flood Wave Modification Along Prismatic Channels, 1050
Ice and River Control, 120
New Horizons in the Field of Tidal Hydraulics, 224
Nuclear Excavation of an Elat-Dead Sea Waterway, 288
Stochastic Open Channel Flow, 574
Transverse Flow in a River Due to Earth's Rotation, 348

CHEMICAL REMOVAL (Sewage Treatment)
New Approaches to Wastewater Treatment, 783

CHEMICAL STABILIZATION
Creating Hydrophobic Soil for Water Harvesting, 956

CHIMNEYS
Tallest Smoke Stack for Mitchell Plant, 634

CHROMIUM
Optimization of the Ion Flotation of Dichromate, 101

CIRCULATION
Jet-Induced Circulation and Diffusion, 1010

CIVIL ENGINEERING
Technical information Retrieval, 992

CIVIL ENGINEERS
A Black Civil Engineer Looks at His Profession, 879
Civil Engineering and Urban Systems, 308
Critical Need for Civil Engineering Technicians, 625
Engineer Versus Computer—A Strategy of Persuasion, 724
The Military Draft: Educational and Occupational Deferments for Engineers, 520
Opportunities for Civil Engineers in Planning, 869
Public Relations and Public Service Papers in the Los Angeles Section, 441
Survey of Training Programs for Civil Engineers, 679
Transportation—Role for Civils, 987

CLASSIFICATIONS
Theoretical Analysis of Interchange Composition, 1034

CLAYS
Cyclic Stress-Strain Characteristics of Clay, 306
Effects of Loading Method on Triaxial Test Results, 733
Electrical Dispersion in Relation to Soil Structure, 818
General Stress-Strain-Time Function for Soils, 600
Prediction of Swelling Pressure of Clays, 951
Progressive Failure in Slopes of Overconsolidated Plastic Clay and Clay Shales, 371
Slopes in Stiff-Fissured Clays and Shales, 969
Strength of Compacted Clay at High Pressure, 172
Stress-Controlled Apparatus for Triaxial Testing, 389
Vibration Modulus of Normally Consolidated Clay, 739

CLOUD SEEDING
Design of Cloud Seeding Program, 1004

COASTS
Equilibrium Flow Areas of Inlets on Sandy Coasts, 76

COEFFICIENTS
Bridge Piers—Hydrodynamic Force Coefficients, 467
Laboratory Study of Inertia Forces on a Pile, 704
Sheet-Pile Analysis by Distribution Theory, 703

COFFERDAMS
Design of a Barrel-Vault Cofferdam, 223
Finite-Element Analysis of Seepage Through Dams, 317

COHESIONLESS SOIL
Elastic Behavior of Cohesionless Soil, 111

COLD WEATHER CONSTRUCTION
Arctic Construction Problems and Techniques, 1065

COLLAPSE
Collapse of Yielding Structures During Earthquakes, 716

COLUMNS (Supports)
Biaxial Moment Thrust Curvature Relations, 134
Buckling Analysis of One-Story Frames, 792
Buckling of Inelastic, Tapered, Pin-Ended Columns, 479
Columns Braced by Girts and a Diaphragm, 114
Curvature and the Solution of Eccentrically Loaded Columns, 313
Inelastic Bar Subjected to Thrust and Cyclic Bending, 915
Reinforced Lightweight Concrete Columns, 920
Repair of 7-Story Bearing Wall, 242
Response of Slender Columns to Rapid Compression, 206
Review of Column Behavior Under Biaxial Loading, 905
Shakedown of Bars in Bending and Tension, 71
Slender Prestressed Concrete Columns, 505
Stability Behavior Illustrated by Simple Models, 999
Stability of Columns Subject to Impulsive Loading, 1014
Torsional-Flexural Buckling of Thin-Walled Sections under Eccentric Load, 125
Ultimate Strength of Laterally Loaded Columns, 576

COMMUNICATING
Scientific Method—A Triad, 304

COMMUNITY RELATIONS
A Highway Administrator Looks at Community Values, 820
Public Relations and Public Service Papers in the Los Angeles Section, 441

COMPACTING
Air Permeability of Compacted Cohesive Soils, 867
Kneading Compaction of Asphalt Beam Specimens, 474

COMPACTION
Sand Compaction with Vibratory Rollers, 67
Strength of Compacted Clay at High Pressure, 172

COMPLEMENTARY ENERGY METHOD
Complementary Energy Method for Buckling of Arches, 548
Complementary Energy Method for Buckling of Plates, 497
Finite Element Plate Bending Equilibrium Analysis, 1081

COMPOSITE MATERIALS
Closing Materials Research Structural Design Cycle, 1031

COMPOSITE STRUCTURES
Prestressed Concrete Simplifies Construction of Breakwater/Wharf, 29
Structural-Design Innovations in Japanese National Railways, 971
Tallest Smoke Stack for Mitchell Plant, 634
Tests on Composite Beams with Cellular Deck, 315

COMPOSTS
Compost for Agricultural Land?, 143

COMPUTATION
Computer Programs for Strip Aerotriangulation, 913
Evaluation of Segmented IUH from Derivatives, 166
Guide to Development and Use of Electronic Computer Programs: Documentation, 281

COMPUTER APPLICATION
Technical Information Retrieval, 992

COMPUTER PROGRAMMING
BUILD—An Integrated System for Building Design, 546

COMPUTER PROGRAMS
Analytically Derived Unit Graph and Runoff, 274
Close-Range Photogrammetric Data Reduction Scheme, 48
Computer Programs for Strip Aerotriangulation, 913
Discrete-Element Analysis for Discontinuous Plates, 754
Finite Strip Method Analysis of Elastic Slabs, 964
Guide to Development and Use of Electronic Computer Programs, 281

COMPUTERS
Analysis of Unbraced Multistory Steel Rigid Frames, 616
Analytical Aerotriangulation in Highway Design, 104
Arch Dam Layout Facilitated by Use of Computer, 506
Computation of Oil Pipeline Transients, 723
Computer Programs for Strip Aerotriangulation, 913
Computer Simulation of Unsteady Flows in Waterways, 655
Construction Management Game-Deterministic Model, 240
Control of Transient Free-Surface Flow, 990
Design of Optimal Hydraulic Networks, 605
Double-Mass Analysis on the Computer, 528
Dynamic Response of Frames with Nonrigid Connections, 1053
Elasto-Plastic Analysis of Ribbed Plates, 535
Electronic Data Processes in Highway Operations, 141
Engineer Versus Computer—A Strategy of Persuasion, 724
Fifty Years in Surveying—Mapping,—and the Future, 932
Finite Element Analysis of Plywood Plates, 424
Finite-Element Analysis of Seepage Through Dams, 317

Finite Element Method Applied to Some Problems in Soil Mechanics, 216
Guide to Development and Use of Electronic Computer Programs: Coding, 279
Guide to Development and Use of Electronic Computer Programs: Documentation, 281
Guide to Development and Use of Electronic Computer Programs: Programming, 278
Hydrograph Synthesis by Digital Computer, 103
Influence Surfaces for Continuous Plates, 324
Integral Equation Method for a Corner Plate, 410
Lateral Loads in Asymmetric Multistory Structures, 443
Metropolitan Toronto Traffic Surveillance and Control System, 154
Monte Carlo Study of Structural Safety, 836
Nonlinear Earthquake Behavior of Tall Buildings, 364
On the Application of ICES and Universal Program Software Systems, 500
Optimum Life of Equipment for Maximum Profit, 1044
P-Δ and Axial Column Deformation in Aseismic Frames, 1025
Photogrammetry for Right-of-Way Acquisitions, 629
Programming for Pavlovsky's Ground-Water Problem, 844
Rational 'Rational' Method of Storm Drainage Design, 903
Recent Approaches for Trickling Filter Design, 496
Repair of 7-Story Bearing Wall, 242
Slender Prestressed Concrete Columns, 505
Solution for Gravity Flow Under a Sluice Gate, 814
Space-Framework Method for Three Dimensional Solids, 373
Static and Dynamic Analysis of Pile Foundations, 571
Stresses and Displacements in Nonlinear Soil Media, 541
Time-Varying Dissolved Oxygen Model, 582
Techniques for Analysis of Large Structures, 727
Unsteady Flow Simulation in Rivers and Reservoirs, 1039
Vibration of Conical Shells Subjected to Torsion, 806
Water Distribution Systems Analysis, 868
Water-Quality Management in Irrigation Systems, 200
Yield Line Analysis of Folded Plate Structures, 884

CONCENTRATED LOADS
Flexure of Circular Plate by Concentrated Force, 589

CONCRETE
Behavior of Prestressed Composite Beams, 392
Costs of Lightweight Concrete and other Materials in Various Building Types, 366
Dworshak Dam: Advance Systems for Producing Aggregates and Placing Concrete, 384
Grain Storage Structures for Food Deficient Areas, 1048
Modern Design of Concrete Pavements, 1046
Newtown Creek Docking Facilities, 469
Photoelastic Analysis of Concrete Storage Tanks, 270
Planning and Construction of an Ellipsoidal Dome, 802
The Rheology of Fresh Concrete, 59
Temporary Bulk Grain Storage Structures, 950
Wood Design Criteria for Concrete Formwork, 482

CONCRETE (**Blocks**)
Stability Tests of Interlocking Block Revetment, 404

CONCRETE (**Construction**)
Dworshak Dam: Advance Systems for Producing Aggregates and Placing Concrete, 384
Limit Design of Reinforced Concrete Frames, 738

CONCRETE (**Lightweight Aggregate**)
Reinforced Lightweight Concrete Columns, 920

CONCRETE (**Pavements**)
Buckling of Continuously Supported Beams, 158
Continuous Reinforcement in Airport Concrete Pavements, 1008

CONCRETE (**Pipes**)
Sealing Leaks in Pipelines with Ammoniated Waters, 129

CONCRETE (**Posttensioned**)
Tie-Downs and Inclined Legs Lead to Slender, Graceful Overpass,

CONCRETE (**Precast**)
Auxiliary Reinforcement in Concrete Connections, 584
Future of Prestressed Concrete, 244
Limfjord Tunnel: Precast Sections in Underwater Trench, 203
Prestressed Precast Concrete Railroad Bridges, 967

CONCRETE (**Prestressed**)
Dumbarton Bridge Renewal, 237
First Prestressed Containment Vessel in a U.S. Commercial Nuclear Power Plant, 698
Future of Prestressed Concrete, 244
Prestressed Concrete Transmission Line Structures, 637
Prestressed Pipe for Power Site in New Zealand, 236
Prestressed Precast Concrete Railroad Bridges, 967
Rail Tracks for Japan's 130-mph Trains, 1012
Tie-Downs and Inclined Legs Lead to Slender, Graceful Overpass, 176
Two Prestressed Concrete Bridges in Pakistan, 762

CONCRETE (**Reinforced**)
